THE CLOSING DAY OF THE GENERAL ASSEMBLY.

SCENES IN THE HOUSE AND SENATE

Watch Presentation to Hon. J. L. Robinson, Speaker of the House. SPEECHES AND COMPLIMEN-

TARY RESOLUTIONS.

Precisely at the hour of 10 o'clock yesterday, the gavels of the two pre-siding officers announced the open-

ing of the last day's work, or the be-ginning of the end of the 1874-75 General Assembly.

The lobbies of both houses were crowded at an early hour with an anxious and solicitous group of lobbyists, each with an axe to grind in the way of getting some delayed bill on its passage. As the hours were few and fleeting the activity among the lobbyists knew hardly any bounds, and it was with great diffi-culty that the Speaker of the House

was enabled to preserve order.

The body of the House was a continual hum of voices throughout the day, and several times the excite-ment was so intense, and the confusion so great, that the Sergeant-at-Arms was called upon to enforce the

rules of order.

Before 12 o'clock the galleries were crowded with visitors, quite a num-ber of ladies gracing the scene with their presence. The exciting scenes transpiring below seemed contagious to the galleries. The ladies seemed equally as much excited as the in-terested lobbyists, and watched with as much eagerness the call of the roll as the member that fathered the proposition then under contest.

All bills and resolutions of impor-

tance that passed are reported under our legislative proceedings. The most interesting event of the day was the watch presentation to Hon. J. L. Robinson, Speaker of the House. At noon the special order for that hour was announced by Mr. Gudger, temporary Speaker, which was the resolution of Mr. Norment, returning the thanks of the House to returning the thanks of the House to Hon. J. L. Robinson, Speaker, for the able discharge of his duties, &c., as such. After the unanimous adoption of the resolutions, Mr. Strong moved that the House take a recess for an half hour to permit the members to express their appreciation of Speaker Robinson's services in a more substantial manner. Adopted. The House being at recess, Col. J.

The House being at recess, Col. J.
D. Cameron called the meeting to
order. Mr. Gudger was called to the
Chair and Mr. Hanner requested to

act as Secretary.

By request, Mr. Strong, in a beautiful and well-timed speech, explained the object of the meeting.

Mr. Staples, who had been selected as spokesman of the Committee of the House, arose and said:

Mr. Speaker :- There are occasions in our lives when we are called upon to discard for a moment the toils and perplexities incident to the performance of public and private duties, to engage in the more agreeable pastimes of social intercourse. There are no there are no emotions of the human heart, and there are no joys of human life that are not made more lasting, more touching and sweeter than, by association with those whom we love

and respect. Human ambition, and human achievement, the love of glory and the hope of fame, are but the sparks that fly from the fires of love and friendship that burn upon the altar of the human heart. The great army of the dead that are mar-shalled in silent graves upon the plains of battle, were once bouyant and happy in the very jaws of death, when the cannon coared and the muskets rattled, as memory fled from the scenes of car-nage around them and went back,

left behind. There is no station in life, however high or however low, in which we cannot find a congenial spirit, where there is not some one who can rejoice with us in our successes, and weep with us in our disappointments. How lonesome looking would be the heavens if there were but one star to greet the eye. Strike from that vast expanse above the myriads of bright and shining stars and leave but one there, and the beautiful skies of night would bow their heads in mourning; rob the forest of all it; trees save one, and leave it lonely there and every passing breeze would catch up its song of melancholy. We

may be bereft of riches and deprived of our worldly goods and still be happy, if the heart-strings are but swept by the hands of a friend.

I have been led into this train of thought, Mr. Speaker, by the circumstances which surround us on this occasion. You are doubtless aware of the fact that I have been

of Representatives to express to you at this time our high appreciation of the uniform courtesy which has been extended to us by you as our presiding officer; without partiality, without favor or fear, and with an eye single to the best interests of the perple of North Carolina, you have ably and faithfully discharged the public business in such a manner as to re-flect credit upon yourself, your State and this House.

We would not gratify the desires of our hearts, were we merely to express our feelings in words, but sir, we ask to present to you a testimonial of our years to come, (when perhaps many of us that surround you to-day, shall have passed away) bring to your mind the scenes of this hour and the friendship which we bear towards

When gone its loss deplore;
When gone its loss deplore;
Ner till the fleeting moment flies,
Do more als learn its worth to prize,
When it returns no more;
For this an anxious look we cast
With fond regret on hours long past,
For this the feeling hearts reveres,
The memory of departed years."

In the name of the House of Representatives of North Carolina, I s a token of our friendship and re-

describe; and that it is vain to seek for language to clothe the thoughts that an occasion like this brings rush-

that an occasion like this brings rushing through the mind. A tongue less faltering and far more eloquent than mine will confess its incompetency to the task.

Our associations here in this Hall, with the excitement of debate, and the triumphs achieved by argument and eloquence will soon be forgotten in the interest inspired by other scenes and other contests. But this occasion and the flattering method you have chosen to express your apyou have chosen to express your appreciation of my efforts to make you an acceptable presiding officer, will mark an epoch in my life that memory will ever revert to with gladness

and pride. I cannot thank you for this elegant testimonial as my heart dictates. dictates.

As the quiet but unceasing movement of the delicate machinery of this souvenir of your partiality and hindness, vibrates in response to a principle which it cannot resist, so too, I hope, gentlemen, that each pulsation of our hearts may ever beat responsive to the laws of honor, friendship and good will; and that the highest ambition of each one of us may be to serve faithful and honestly our beloved State, whether in ertly our beloved State, whether in public position or in the ranks of private life, remembering that

"Honor and fame from no condition rise. Act well our part, 'tis there the honor lies." I thank you again for the touching manifestation of your regard. The watch was a very fine hunting

case gold chronometer, balance wheel, valued at \$250, with a plain and neat solid gold breast or vest chain. The House resumed its ression at 123 o'clock and continued till 3 o'clock, adjourning at that hour

amidst the greatest excitement. OUR CHURCHES To-DAY .- Divine services will be held at the following Churches to-day, (Sunday.) Strangers and others in the city are earnestly and cordially invited to attend. Gentlemanly ushers will be present

RESOLUTIONS IN REGARD TO THE CENTENNIAL OF AMERICAN INDE-PENDENCE.—The following resolutions introduced in the House by Mr.

McRae have passed the Legislature: Whereas, On the 4th July, 1876, the Centennial of American Independence will be celebrated at Philawas made; and whereas, it is proposed at that time to gather up the industries of the States and to show their resources to a world assembled and whereas, at this most prope time to bury the animosity of past years and in brotherly kindness to commence the work another century, North Carolina present at the birth ought not to be absent from the manhood festival of American free-

dom. Therefore be it

Resolved by the General Assembly
of North Carolina, That our State
ought to be represented in the Centennial celebration to be held at Philadelphia, in the persons of her sons and daughters, and in the exhi bitions of her resources, her products and her manufacturies

to the people to fill up the North Carolina department in this great exhibition with a beautiful supply of her rich and various products, and go themselves to this peaceful re-union of a reconciled people and assist in the opening of a new century of prosperity and peace.

THE STORM OF YESTERDAY-DES-TRUCTION OF PROPERTY AND PROBABLE Loss of LIFE.—The most severe and disastrous wind and rain storm of the season passed over this section yesterday evening and con-tinued with great fury for nearly an

hour.
On the farm of F. E. Weathers, in the vicinity of New Hope, about six miles from the city, several houses, occupied by farm laborers, were unroofed, blown down and a number of colored men severely if not seriously colored men severely if not seriously wounded. The barn of Mr. Weathers was also blown down, and Mr. Sydney Tharpe, it is feared was fatally injured by falling timbers. Young Mr. Weathers came to the city last evening to secure medical aid for the maimed unfortunates, and reports the destruction of fences, forests and buildings in the neighborhood as inc. buildings in the neighborhood as im-

mense.

In the city the storm was not so severe, but nevertheless destructive. The skylight of the new DAILY News building was lifted from the roof and precipitated to the ground below with a crash that alarmed the prighborhood. neighborhood. We also learn that the water tank of the North Carolina railroad, at

the Central depot, was blown down and destroyed. CLARA WILDMAN.—The Clara Wildman New York Comedy Company closed a very successful engage ment of three days at Tucker Hall last night. The play was Lucretia Borgia and was well rendered, each

character sustaining the stars better than in any previous play.

Little Ollie, as usual, brought down the house in her character songs, and the farce was decidedly good. The Company goes from here to Newbern to fill a week's engagement. We bespeak for them good houses in the Elm City.

HIGHWAY ROBBERY.-Phil Lane, the notorious, with another colored accomplice, attempted to take from an old farmer, on the streets yesterday, a sum of money by force. The old Granger, however, fell back on his muscle, which proved equal to the emergency, and not only resisted the rogues but overpowered them and carried both before the Mayor. They are now enjoying the hospitalities of hotel de Dunn.

THE PRESIDENT OF THE SENATE.

Senator Tucker introduced the form to wing resolution, which was added unanimously:

Resolved, That this Senate we the avote of them has to the Lieu Governor, the Passident of the agent of the affects of the first Whiskey.

The President responded to this resolution as follows:
Senators, the adoption of the resolution, and the rememberance of the uniform kindness and consideration with which you have treated your President, fills me with emotions of gratitude towards each one of you which I cannot express. You but do me justice when you say that I have discharged my duties with impartiality. When I first took the chair, I resolved to know no man and no political party on the floor of the Senate. I hope I have been able to carry out this resolution in the dis-

the honor, the kindness and the con-sideration which I have received at the hands of all of you. A GENERAL RESOLUTION. Mr. Walker introduced the following resolution, which was unanimously adopted:

Resolved, That the thanks of the Senate are due and are hereby ten-dered to the Secretary of the Senate, the Reading Clerk and his assistants, the Reverend the Clergy of the city and the Reporters of the Senate for

Effects of the Ice Floods. PORT JARVIS, March 19th .- The flood here is fearful. The water is from five to fifteen feet deep in the streets. The whole town is nearly flooded. The railroad depot is full The whole town is nearly of water, rect of the editorial columns night this issue.

THE Arkansas troubles may be said to be settled, the President having appointed Brooks Postmaster at Little Rock, which is the same quiet shelving that was done for W. W. Holden. It is a sop big enough to secure quiet.

THE Watchman mentions a singular phenomenon in Salisbury on Monday afternoon, during the progress of a thunder storm. A gust swooped down from the higher regions of the storm, and in an instant demolished three houses, and raising itself again passed off without injury to anything else.

THE railroad blockade is ended, and connection is again made at Greensboro with Charlotte. All along the road this war against the State has been accompanied with the inconvenience necessarily attaching to the suspension of accustomed intercourse. It will not have the effect of making the people view it with any more favor.

We are pleased to see the ready adhesion by the Wilmington Star to the act of its party in the call of a Convention. The Star has always opposed it, firmly and zealously, and at the same time fairly and honestly. The press of the State, that is the Conservative, is all in harmony how, and will be expected to work together to give us such a Convention as will recall the days of '35. It is easy to have the people with us. Let us go to work.

THE Radical band of the President dies hard in the Senate. They cannot agree to condemn the President's Louisiana or Arkansas policy. Why? The President is found to be the most liberal man in the world to those who sacrifice conscience and judgment for his sake. Nearly every man prominent in the House on the Force bill has been rewarded with a fat office, and this is the string Grant is going to play on to secure his nomination for the third time. He holds on to that idea with his accustomed stubborn-

THE CASE OF THORNE.

We do not refer to this case again with any view of modifying our opinions fully expressed previously. Thorne himself has spared us that task, for since his expulsion he has published his pamphlet in defence of himself, which is perhaps the unwisest thing he could have done. He sought to make a martyr of himsel. He stands convicted out of his own mouth.

We annex the following paragraph from the Cincinnati Times, a Republican paper, which takes a view so correct, and one not to be expected from its point of view, that it acts as a full justification of the action of the Legislature. The Times makes one error. So far as politics were concerned, Thorne might have sat in the House till the close of the session without being in the way politically. His vote was neither needed nor feared. The first assault upon him came from his own party. Some of the strongest speeches against him were made by them. And the most earnest defence came from the Democrats. Thorne has failed as a martyr,

and passes into oblivion. "It is certainly one of the most Curious cases on record: As the House was the only judge of the merits of its own members, their action was of course beyond appeal; and we cannot for the life of us find any reason to blame them for not wanting a sheep of that color in the pasture. Nor does the quite apparent fact that, but for political feeling, the resolution would have failed, even in the least change our opinion.

Mr. Thorne may, possibly, have had a perfect right to his religious views; but he had no right, as a legislator, to thrust them prominently before

the public.
"Politically speaking, he wilfully digged his own grave; and it is no more than right that he should be

A provision for this class of unfortunates is as binding upon the State us for the whites, and it is far better that they should be cared for in their own proper allotment. Considerable hostility to the measure was manifested by the colored members upon the ground of unhealthfulness of locality. Their mistake in this particular is perhaps natural, but nevertheless, it is a mistake, for Wilmington, in its salubrity, will

compare well with any town in the State, as evidenced by the bills of portality. Consumptives, Take Notice.—Every moment of delay makes your cure more hopeless, and much depends on the judicious choice of a remedy. The amount of testimony in favor of Dr. Schenck's Pulmonic Syrup. as a cure for consumption, far exceeds all that can be brought to support the pretensions of any other medicine. See Dr. Schenck's Almanac, containing the certificates of many persons of the highest respectability, who have been restored to health, after being pronounced incurable by physicians of acknowledged ability. Schenck's Pulmonic Syrup alone has cured many, as these evidences will show; but the cure is often promoted by the employment of two other remedies which Dr. Schenck provides for the purpose. These additional remedies are Schenck's Sea Weed Tonic and Mandrake Pilis. By the timely use of these medicines, according to directions, Dr. Schenck certifies that most any case of Consumption may be cured.

Dr. Schenck is professionally at his principal office, Corner Sixth and Arch Sts., Philadelphia, every Monday, where all letters for advice must be addressed.

GUANOS. E N U I N ORCHILLA GUANO.

A TRUE BIRD GUANO.

Soluble Ammoniated South Sea Guano. B. M. RHODES & CO.,

-Office 32 South Street, Baltimore. Analysis made by order of Prof. W. C. KERR, State Geologist of North Carolina, by Dr. F. A. GENTH, University of Pennsylvania at Philadelphia.

Chemical Laboratory of the University of Pennsylvania. I have analyzed as follows:—"I Sample of "Soluble Ammoniated South Sea Guano, prepared for Cotton by B. M. RHODES & CO., 82 South Street, Baltimore, 182 lbs.,"

MOISTURE, 15-53 per cent.

SOLUBLE PHOSPHORIC ACID, 4.32 " equivalent to 9.43 pr. ct. of Bone Phosphate of Lime PRECIPITATED, " 7.16 " 15.63 " 15.63 " Ammonis.

ALKALINE SALTS, - 8.25 " 2—Sample of "Orchilla Guano, A.A., B. M. RHODES & CO., Importers' Agents, & South Street, Baltimore, 167 lbs. Curacao," which I found to contain— PHOSPHORIC ACID. - 26.86 pr. ct., equivalent to 58 64 pr. ct. of Bone Phosphate of Lime ALKALINE SALTS. - 4.53

Both samples were certified to having been taken, sealed and sent by THOS. HARRIS HODGES, Notary Public, and were in perfect condition. Professors TONRY, LIEBIG and MALLET say of the Orchilla Guano : The Orchilla, which seems to be an organic deposit, can be recommended to the farmer for use in its crude state, and after a careful and complete analysis, as well as a thorough examination of the mechanical condition, as well as from the testimony of several who have used it in its crude state, and have expressed to me their entire satisfaction. I feel perfectly justified in recommending the Orchilla.

W. P. TONRY,

Prof. Anal. and App'ld Chemistry, Maryland Institute.

The Orchilla Guano, which is truly an organic deposit, deserves well the attention of the farmer, not only on account of the high grade of its Phosphates of Lime and Alkaline Salts, but more particularly for the physical condition and texture in which this Guano is presented.

G. A. LIEBIG, Ph. D.

G. A. LIEBIG, Ph. D.

This material decidedly recommends itself to the attention of farmers by its large proportion of Phosphoric Acid, being in a form to be much more easily taken up by growing plants than that of the harder and more compact Mineral Phosphates. Farmers can themselves very easily add Peruvian Guano, Cotton-Seed, Mill Refuse or other material affording Nitrogen when it is desired to combine the effort of Ammoniacal with Lat. gentlement respectively. I am, gentlemen, respectfully yours, J. W. MALLET, Charlottsville, Va.

RALEIGH, N. C., January 29, 1875.

From the Analysis of Dr. Genth there is no doubt of the high percentage of Phosphate of Lime in this Guano, and I endorse the recommendations of Prof. Mallett upon the above testimony of himself and Prof. Liebto & Tonky as to its physical condition that it offers a desirable source of Phosphoric Acid to Cotton Farmers and others who have the means of furnishing the Nitrogenized matter at home.

The Good Templars flourish in Salisbury. Oysters are quite scarce in the Wilmington market.

Peach and apricot trees are in oom around Salisbury. There are five newspapers published in Wilson county. R. B. Creecy, Esq., has taken editorial charge of the Albemarle Reg-

The various committees to make arrangements for the approaching Centennial celebration are vigorously at work in Charlotte, and the pros-pect of a crowning success is bright and encouraging.

John Williams, the murderer of Mr. Elias Cohen, of Whitakers, now in the Tarboro jail, has confessed the act, in which he implicated Elias Powell as his accessory. Powell has been arrested and committed to jail.

Union Hill, Rowan county, had a tornado on Tuesday last which lifted up three log dwellings and scattered the timbers for acres around. Trees and fences were also uprooted and blown down, but there was no serious injury to persons.

Pinchback forced the majority of the Senate down to a fair level with himself by his threats of disorganization in case of his defeat. And when the great leaders got settled down on the lowest round of the Kellogg political ladder, they simply put Pinchback under bonds for his good behavior until December next, and then affectionately bowed him out. It was an achievement of modern states-manship eminently worthy of the carpet-bagger West, and its lustre was heightened by Cameron violating his pair made with Senator Ferry, of Connecticut. Pinchback will doubtless come again with the later frosts of autumn and ask admission, but then the elections will be over, the political harvest of the season will be gathered, and he will be informed that he is not in their line. He will then gravitate to a tide-waitership on the ragged edge of the Kellogg plunderers, and, it is hoped, will be hap-py.—Philadelphia Times.

Accuracy is always a desirable quality in a newspaper, particularly con-cerning matters upon which it is eas-ily attained. A late number of the Portland (Maine) Press has the following: "Since the passage of the Civil Rights bili respectable colored persons have applied for and have purchased tickets to several places of amusement in Washington, and have occupied the most desirable seats without the raising of any objections by whites. Senator Pease, the color-ed ex-Senator from Mississippi, and Mr. Pinchback occupied seats in the Opera House the other night." These lines contain two errors. In the first place, for several years respectable cylored people have had no difficulty in obtaining tickets to places of amusement in Washington; second, ex-Senator Pease, of Mississippi, is a white man. His successor, Hon. Blanch K. Bruce, is a negro.

leged to have been made by Mr. Geo. Smith, who had charge of the expedition sent to Assyria by the London Telegraph. In exploring Assyrian and Chaldean mounds he has succeeded in finding inscriptions which, when combined with fragments in the British museum, give the history of the world from the creation of the world to some period after the fall of man. Connected with these he found other legends of primitive history, including the story of the build-ing of the Tower of Babel and the confusion of tongues. It appears from these discoveries that the Assyrian, Chaldean and Mosaic accounts of these early events in the history of the world are identical. When his investigations are completed Mr. Smith will publish a full account

Gov. Chamberlain, of South Carolina, finds reform a difficult task in the absence of any support from the Legislature, but he is at least able to prevent the riotous extravagance of the ignorant rascals who hold the power from carrying the State any further toward utter ruin-if, indeed that point is not already reached. His veto of the bill for the liquida-tion of the floating debt does him credit, and justifies the professions of honesty that have been made in his behalf. He appears to have gained the confidence of the Conservatives who opposed his election, and on whom alone he can rely to sustain him in his efforts to redeem the oppressed State.—Philadelphia Times.

A woman and a man went into partnership in the business of blackmailing recently in St. Louis, and got into trouble with their first effort. The plan was that the woman should set up as a clairvoyant fortune-teller, secure servant girls as patrons, and get from them the se-crets of wealthy families. Upon these clews the man was to work up strong cases and then demand a large price for silence. In pursuance of this scheme the son of a rich man was selected as a victim, but he only turned over the blackmailers to the police, remarking that he didn't "care a copper for the exposure."

Five members of the senior class at Harvard intend forming a party to travel on foot through Ireland, Eng-land, France, Switzerland, Germany and Italy. They propose to start immediately after commencement and be absent about a year. They will take passage over by steerage and return by cabin. By roughing it they hope to get a better insight into the customs and habits of the people where they will need them they could whom they will meet than they could by traveling in the customary way.

The New York Graphic says the total importations at that port during February show a gain of \$12,000,000 over the month of January last. This is substantial evidence of the revival of business and of the increased abundance of money.

An Important Fact.—The voluntary testimony of thousands establishes beyond all donot a fact that of vital importance to the sick and debilitated, viz., that Hostetter's Stomach Bitters is an absolute specific for remittent and intermittent fever, dyspepsia, constipation, billiousness, mental depression, sieeplessness, chronic diarrhosa, and all diseases of the stomach, liver and bowels. The unmedicated stimulants usually prescribed in these cases only aggravate the symptoms, instead of removing them. The Bitters on the contrary, act as a corrective and invigorant, without producing the unpleasant and dangerous consequences of the old school practice. The action is mild and sootning to the irritated stomach and bowels, promoting digestion and preventing flatulence, nausea, headache and all intestinal irregularities. A wineglassful before meals greatly assists digestion. The convalescent may use them with great benefit, as a means of restoring strength and cheerfulness.

ENCOURAGE HOME INDUSTRY. Why will our Merchants and others buy their Cigars from the North instead of patronizing their own Factories at home. Why will they be imposed upon by those Nonads of Northern firms, the Drummers, Whose expenses and extravagances they (our Merchants) have to pay out of the cabbage leaves, plugs, soaks, spurious mixed Havanas, and infected rubbish, that they buy from them.

they buy from them.

By purchasing their Cigars from the North, our Merchants enrich a class, that neither care for our community, and leave none of the money spent with them here, whilst the Cigar Manufacturers of Raleigh languish for reason of patronage from the very one's that ought to take a pride in building up home Manufacturers in their midst. There's no kind or style of Cigar that the Northern Factories make, that our Cigar Manufactorers cannot make also, and as for prices, we can give better satisfaction both in quality and cheapness, than the whole army of Commercial Agents that infest Raleigh in the interests of Northern Houses.

By encouraging Home Manufactures,

of Northern Houses.

By encouraging Home Manufactures, our Merchants will see our Cigar Fuctories (instead of being mere burlesques of Factories of modest appearance) large in size, flourishing in plenty of work, with twenty or thirty Cigar makers constantly making up stock for home consumption. Those men that our Manufacturers would employ world spend from three to four hundred dollars weekly, thereby benefiting the community at large and keeping the money where it ought to be at home. The Merchants of Charlotte buy exclusively from their two Cigar Manufacturers, and shill Raieigh be antagonistic to Charlotte. Time will decide.

GUANOS, 19 ORING GUANOS. OFFICE OF THOS. BRANCH & CO., M.T. NORRIS, W.A. MYATT. THE THE

BANKERS and COMMISSION MERCHANTS.

RICHMOND, VA., February 25th, 1875.

The Guanahani Guano Company has seen fit to publish a card to the effect that our "Cat Island Guano" is of an inferior quality to their importations, and had been rejected by them. From the reputation of the signers of that card, we presume they did not know that this statement was false. We propose to prove to the satisfaction of that Company and of the public the following facts, viz:

1st. That their agent at the Islands attempted (AND FAILED) to get control of deposits of Guano that were secured by a member of our firm who is now at the Islands.

2d. That our Cat Island Guano, according to the analysis of Professor White, of the University of Georgia, (who analyzed for the Guanahani Company,) is at least the equal of the Guano imported and sold by the Guanahani Company last spring in the cotton sections of Virginia and North Carolina.

Our Guano shall stand or fall by the crucial test of the analytical chemist, and not by cards put out on the eve of the planting season. We will have each cargo analyzed before its receives our brand, or is offered the public, and we will publish the report of the chemist. We invite the Guanahani Company to publish the analyses of each of the various lots offered er sold by them last spring, that the public may decide.

We have been enabled to avoid the mistakes that the inexperience of the Guanahani Company betrayed them into last year. We are not taxed with the enormous expenses for salaries, &c., paid by them, and with one of our firm on the Island, and one of the most experienced Guano men in the country as our General Agent, we are satisfied we can beat them in quality and price. We challenge them to meet us in the laboratory or on the plantation; and until they can compete with us successfully in these tests, their paper attacks will not hurt the best natural Guano (except Peruvian) yet offered to the public.

They write about "their standard!" Will they publish it? Why did they publish a standard last year, and withdraw it? We have taken proper steps in the Courts to p

is no new or untried manure. It has been before the public for upwards of ten years, during which time it has been steadily growing in reputation, until it is now universally recognized as one of the most uniformly reliable concentrated fertilizers in the market. It is manufactured from the best and purest raw materials, every one of which is subjected to chemical analysis before being used. The purity of the fertilizer is thus assured. In addition to this, every step of its manufacture is conducted under the strictest chemical supervision, so that farmers are thus guarded at every point from any danger of using an inferior article. Messrs. Ring, White & Shaw:
Gentlemen:—In reply to your inquiry as to my opinion of Whann's Raw Bone Super-Phosphate, I unhesitatingly say that by comparison with other fertilizers during the last three years, I am satisfied that Whann's has turned out better crops for me than any other, and I expect to continue to use it.

Yours truly,

Dear Sirs:—At the Orphan Asylum in Oxford, a very decided success has attended every application of Whann's Raw Bone Super-Phosphate. The land was poor, and the season dry, but the crops surpassed our expectations. Such a fertilizer will work its own way, because those who have used it once will want it again.

J. H. MILLS, Supt.

Louisburg, N. C., November 7, 1874. Messrs, King, White & Shaw:
I have used Whann's Raw Bone Super Phosphate for the past four years, and am so well pleased with its result on my cotton crop that I have no wish to buy any other Fertilizer.

Effects of the Ice Floods. PORT JARVIS, March 19th .- The from five to fifteen feet deep in the The whole town is nearly flooded. The railroad depotie full of water, nect of the editorial colutions night this issue.

THE Arkansas troubles may be said to be settled, the President having appointed Brooks Postmaster at Little Rock, which is the same quiet shelving that was done for W. W. Holden. It is a sop big enough to secure quiet.

THE Watchman mentions a singular phenomenon in Salisbury on Monday afternoon, during the progress of a thunder storm. A gust swooped down from the higher regions of the storm, and in an instant demolished three houses, and raising itself again passed off without injury to anything else.

THE railroad blockade is ended, and connection is again made at Greensboro with Charlotte. All along the road this war against the State has been accompanied with the inconvenience necessarily attaching to the suspension of accustomed intercourse. It will not have the effect of making the people view it with any more favor.

WE are pleased to see the ready adhesion by the Wilmington Star to the act of its party in the call of a Convention. The Star has always opposed it, firmly and zealously, and at the same time fairly and honestly. The press of the State, that is the Conservative, is all in harmony how, and will be expected to work together to give us such a Convention as will recall the days of '35. It is easy to have the people with us. Let us go to work.

THE Radical band of the President dies hard in the Senate. They cannot agree to condemn the President's Louisiana or Arkansas poliev. Why? The President is found to be the most liberal man in the world to those who sacrifice conscience and judgment for his sake. Nearly every man prominent in the House on the Force bill has been rewarded with a fat office, and this is the string Grant is going to play on to secure his nomination for the third time. He holds on to that idea with his accustomed stubborn-

THE CASE OF THORNE.

We do not refer to this case again with any view of modifying our opinions fully expressed previously. Thorne himself has spared us that task, for since his expulsion he has published his pamphlet in defence of himself, which is perhaps the unwisest thing he could have done. He sought to make a martyr of himsel. He stands convicted out of his own mouth.

We annex the following paragraph from the Cincinnati Times, a Republican paper, which takes a view so correct, and one not to be expected from its point of view, that it acts as a full justification of the action of the Legislature. The Times makes one error. So far as politics were concerned, Thorne might have sat in the House till the close of the session without being in the way politically. His vote was neither needed nor feared. The first assault upon him came from his own party. Some of the strongest speeches against him were made by them. And the most carnest defence came from the Democrats. Thorne has failed as a martyr,

and passes into oblivion. "It is certainly one of the most curious cases on record. As the House was the only judge of the merits of its own members, their ac-tion was of course beyond appeal; and we cannot for the life of us find any reason to blame them for not wanting a sheep of that color in the pasture. Nor does the quite appa-rent fact that, but for political feeling, the resolution would have failed, even in the least change our opinion.

Mr. Thorne may, possibly, have had
a perfect right to his religious views;
but he had no right, as a legislator, to thrust them prominently before

the public.
"Politically speaking, he wilfully digged his own grave; and it is no more than right that he should be

COLORED INSANE ASYLUM.

The citizens of Wilmington havng tendered the use of the building of the Marine hospital near that city for the purpose, the Legislature accepted it as a suitable location for an Asylum for the colored insane. A provision for this class of unfortunates is as binding upon the State us for the whites, and it is far better that they should be cared for in their own proper allotment. Considerable hostility to the measure was manifested by the colored members upon the ground of unhealthfulness of locality. Their mistake in this particular is perhaps natural, but nevertheless, it is a mistake, for Wilmington, in its salubrity, will compare well with any town in the State, as evidenced by the bills of Illin ortality. Consumptives, Take Notice.—Every moment of delay makes your cure more hopeless, and much depends on the judicious choice of a remedy. The amount of testimony in favor of Dr. Schenck's Pulmonic Syrup, as a cure for consumption, far exceeds all that can be brought to support the pretensions of any other medicine. See Dr. Schenck's Almanac, containing the certificates of many persons of the highest respectability, who have been restored to health, after being pronounced incurable by physicians of acknowledged ability. Schenck's Pulmonic Syrup alone has cured many, as these evidences will show; but the cure is often promoted by the employment of two other remedies which Dr. Schenck provides for the purpose. These additional remedies are Schenck's Sea Weed Tonic and Mandrake Pilis. By the timely use of these medicines, according to directions, Dr. Schenck certifies that most any case of Consumption may be cured.

E N U I N ORCHILLA GUANO

> A.A. A TRUE BIRD GUANO.

Soluble Ammoniated South Sea Guano.

B. M. RHODES & CO., office 82 South Street, Baltimore.

Analysis made by order of Prof. W. C. KERR, State Geologist of North Carolina, by Dr. F. A. GENTH, University of Pennsylvania at Philadelphia. Chemical Laboratory of the University of Pennsylvania.

I have analyzed as follows:—"I Sample of "Soluble Ammoniated South Sea Guano, prepared for Cotton by R. M. RHODES & CO., \$2 South Street, Baltimore, 182 by.," which I found to contain—

MOISTURE, 15-53 per cent.

SOLUBLE PHOSPHOBIC ACID, 4.32 " equivalent to 9.43 pr. ct. of Bone Phosphate of Lime Precriettate, "7.16 " 15.63 ".

NITROGEN, equivalent to 2.98 " Ammonis.

ALKALINE SALTS, 8.25 "

2—Sample of "Orchilla Guano, A.A., B. M. RHODES & CO., Importers' Agents, 82 South Street, Baltimore, 167 lbs. Curacao," which I found to contain— PHOSPHORIC ACID. - 26.86 pr. ct., equivalent to 58 64 pr. ct. of Bone Phosphate of Lime Both samples were certified to having been taken, sealed and sent by THOS. HARRIS HODGES, Notary Public, and were in perfect condition.

Professors TONRY, LIEBIG and MALLET say of the Orchilla Guano : The Orchilla, which seems to be an organic deposit, can be recommended to the farmer for use in its crude state, and after a careful and complete analysis, as well as a thorough examination of the mechanical condition, as well as from the testimony of several who have used it in its crude state, and have expressed to me their entire satisfaction. I feel perfectly justified in recommending the Orchilla, w. P. TONRY, Prof. Anal. and App'ld Chemistry, Maryland Institute.

The Orchilla Guano, which is truly an organic deposit, deserves well the attention of the farmer, not only on account of the high grade of its Phosphates of Lime and Alkaline. Saits, but more particularly for the physical condition and texture in which this Guano is presented.

G. A. LIEBIG, Ph. D. This material decidedly recommends itself to the attention of farmers by its large proportion of Phosphoric Acid, being in a form to be much more easily taken up by growing plants than that of the harder and more compact Mineral Phosphates. Farmers can themselves very easily add Peruvian Guano, Cotton Seed, Mill Refuse or other material affording Nitrogen when it is desired to combine the effort of Ammoniacal with Lan. gentlemen representable.

I am, gentlemen, respectfully yours, J. W. MALLET, Charlottsville, Va.

MESSERS. B. M. RHODES & Co.:—The Orchilla Guano which I used on my plantatio gave me perfect satisfaction, and my manager says it was equal to two others which cost me \$60 per ton.

Peach and apricot trees are in bloom around Salisbury. There are five newspapers published in Wilson county.

R. B. Creecy, Esq., has taken editorial charge of the Albemarle Reg-Tarboro has shipped 35,000 bales of cotton since the first of September,

Eight hundred barrels of flour is ist one week's rations for Rocky Mount. Another land slide on the Charlotte and Atlanta Air-Line Railroad

on Tuesday. Nobody hurt. Charlotte has been honored with the visit of a foreign nobleman in the person of Count Torzkerweiz. John E. Owens, of "Solon Shin-

gle" fame, will amuse the Charlotte-tonians at the Opera House in that city in about two weeks. The various committees to make arrangements for the approaching Centennial celebration are vigorously

at work in Charlotte, and the pros-pect of a crowning success is bright and encouraging. John Williams, the murderer of Mr. Elias Cohen, of Whitakers, now in the Tarboro jail, has confessed the which he implicated Elias

Powell as his accessory. Powell has been arrested and committed to jail. Union Hill, Rowan county, had a tornado on Tuesday last which lifted up three log dwellings and scattered the timbers for acres around. Trees and fences were also uprooted and blown down, but there was no

serious injury to persons.

Pinchback forced the majority of the Senate down to a fair level with imself by his threats of disorganization in case of his defeat. And when the great leaders got settled down on the lowest round of the Kellogg polit-ical ladder, they simply put Pinch-back under bonds for his good be-havior until December next, and then affectionately bowed him out. It was an achievement of modern statesmanship eminently worthy of the carpet-bagger West, and its lustre was heightened by Cameron violating his pair made with Senator Ferry, of Connecticut. Pinchback will doubtess come again with the later frosts of autumn and ask admission, but then the elections will be over, the political harvest of the season will be gathered, and he will be informed that he is not in their line. He will then gravitate to a tide-waitership on the ragged edge of the Kellogg plunderers, and, it is hoped, will be happy.—Philadelphia Times.

Accuracy is always a desirable quality in a newspaper, particularly con-cerning matters upon which it is eas-ily attained. A late number of the Portland (Maine) Press has the following: "Since the passage of the Civil Rights bill respectable colored persons have applied for and have purchased tickets to several places of amusement in Washington, and have occupied the most desirable seats without the raising of any objections by whites. Senator Pease, the colored ex-Senator from Mississippi, and Mr. Pinchback occupied seats in the Opera House the other night.' lese lines contain two errors. In the first place, for several years respectable cylored people have had no difficulty in obtaining tickets to places of amusement in Washington; econd, ex-Senator Pease, of Missis sippi, is a white man. His successor, Hon, Blanch K. Bruce, is a negro.

leged to have been made by Mr. Geo. Smith, who had charge of the expedition sent to Assyria by the London Telegraph. In exploring Assyrian and Chaldean mounds he has succeeded in finding inscriptions which, when combined with fragments in the British museum, give the history of the world from the creation of the world to some period after the fall of man. Connected with these be found other legends of primitive his-tory, including the story of the build-ing of the Tower of Babel and the confusion of tongues. It appears from these discoveries that the Assyrian, Chaldean and Mossic accounts of these early events in the history of the world are identical. When his investigations are completed Mr. Smith will publish a full account

Gov. Chamberlain, of South Carolina, finds reform a difficult task in the absence of any support from the Legislature, but he is at least able to prevent the riotous extravagance of the ignorant rascals who hold the power from carrying the State any further toward utter ruin-if, indeed that point is not already reached. His veto of the bill for the liquidation of the floating debt does him credit, and justifies the professions of honesty that have been made in his behalf. He appears to have gained the confidence of the Conservatives. who opposed his election, and on whom alone he can rely to sustain him in his efforts to redeem the oppressed State.-Philadelphia Times.

A woman and a man went into partnership in the business of blackmailing recently in St. Louis, and got into trouble with their first effort. The plan was that the woman should set up as a clairvoyant fortune-teller, secure servant girls as patrons, and get from them the secrets of wealthy families. Upon these clews the man was to work up strong cases and then demand a large price for silence. In pursuance of this scheme the son of a rich man was selected as a victim, but he only turned over the blackmailers to the police, remarking that he didn't "care a copper for the exposure."

Dibbs demanded. "What's the matter with me? Nothing's the matter. What makes you think so?" "No, no; yew wood." "I would what?" "Damit, can't you understand a man? The New York Graphic says the total importations at that port during February show a gain of \$12,000,000 over the month of January last. This is substantial evidence of the revival of business and of the increased abundance of money.

An Important Fact.—The voluntary testimony of thousands establishes beyond all donot a fact that of vital importance to the sick and debilitated, viz., that Hostetter's Stomach Bitters is an absolute specific for remittent and intermittent fever, dyspepsia, constipation, billiousness, mental depression, sieeplessness, chronic diarrhea, and all diseases of the stomach, liver and bowels. The unmedicated stimulants usually prescrited in these cases only aggravate the symptoms, instead of removing them. The Bitters on the contrary, act as a corrective and invigorant, without producing the unpleasant and dangerous consequences of the old school practice. The action is mild and sootning to the irritated stomach and bowels, promoting digestion and preventing flatulence, nausea, headache and all intestinal irregularities. A wineglassful before meals greatly assists digestion. The convalescent may use them with great benefit, as a means of restoring strength and cheerfulness.

ENCOURAGE HOME INDUSTRY.

Why will our Merchants and others buy their Cigars from the North instead of patronizing their own Factories at home, Why will they be imposed upon by those Nomads of Northern firms, the Drummers, Whose expenses and extravagances they (our Merchants) have to pay out of the cabbage leaves, plugs, soaks, spurious mixed Havanas, and infected rubbish, that they buy from them.

By purchasing their Cigars from the

they buy from them.

By purchasing their Cigars from the North, oar Mercuants enrich a class, that neither care for our community, and leave none of the money spent with them here, whilst the Cigar Manufacturers of Raleigh languish for reason of patronage from the very one's that ought to take a pride in building up home Manufacturers in their midst. There's no kind or style of Cigar that the Northern Factories make, that our Cigar Manufactorers cannot make also, and as for prices, we can give better satisfaction both in quality and cheapness, than the whole army of Commercial Agents that infest Raleigh in the interests of Northern Houses.

By encouraging Home Manufactures,

of Northern Houses.

By encouraging Home Manufactures, our Merchants will see our Cigar Fuctories (instead of being mere burlesques of Factories of modest appearance) large in size, flourishing in plenty of work, with twenty or thirty Cigar makers constantly making up stock for home consumption. Those men that our Manufacturers would employ would spend from three to four hundred dollars weekly, thereby benefitting the community at large and keeping the money where it ought to be at home. The Merchants of Charlotte buy exclusively from their two Cigar Manufacturers, and sh. il Raietgh be antagonistic to Charlotte, Time will decide.

GUANOS, 13 ORIS GUANOS. OFFICE OF THOS. BRANCH & CO., M.T. NORBIS, W.A.MYATT.

BANKERS and COMMISSION MERCHANTS

THE THE

RICHMOND, VA., February 25th, 1875.

The Guanahani Guano Company has seen fit to publish a card to the effect that our "Cat Island Guano" is of an inferior quality to their importations, and had been rejected by them. From the reputation of the signers of that card, we presume they did not know that this statement was false. We propose to prove to the satisfaction of that Company and of the public the following facts, viz:

1st. That their agent at the Islands attempted (AND FAILED) to get control of deposits of Guano that were secured by a member of our firm who is now at the Islands.

2d. That our Cat Island Guano, according to the analysis of Professor White, of the University of Georgia, (who analyzed for the Guanahani Company,) is at least the equal of the Guano imported and sold by the Guanahani Company fast spring in the cotion sections of Virginia and North Carolina.

Our Guano shall stand or fall by the crucial test of the analytical chemist, and not by cards put out on the eve of the planting season. We will have each cargo analyzed before its receives our brand, or is offered the public, and we will publish the report of the chemist. We invite the Guanahani Company to publish the analyses of each of the various lots offered or sold by them last spring, that the public may decide.

We have been enabled to avoid the mistakes that the inexperience of the Guanahani Company betrayed them into last year. We are not taxed with the enormous expenses for salaries, &c., paid by them, and with one of our firm on the Island, and one of the most experience of unanomen in the country as our General Agent, we are satisfied we can beat them in quality and price. We challenge them to meet us in the laboratory or on the plantation; and until they can compete with us successfully in these tests, their paper atacks will not hurt the best natural Guano (except Peruvian) yet offered to the public.

They write about "their standard!" Will they publish it? Why did they publish a standard last year, and withdraw it? We have taken proper steps in the Courts to p

WHANN'S RAW BONE SUPER-PHOSPHATE

is no new or untried manure. It has been before the public for upwards of ten years, during which time it has been steadily growing in reputation, until it is now universally recognized as one of the most uniformly reliable concentrated fertilizers in the market. It is manufactured from the best and purest raw materials, every one of which is subjected to chemical analysis before being used. The purity of the fertilizer is thus assured. In addition to this, every step of its manufacture is conducted under the strictest chemical supervision, so that farmers are thus guarded at every point from any danger of using an inferior article. On

WHANN'S PHOSPHATE has produced the most gratifying results, in many instance far exceeding the most sanguine hopes of those who have used it.

We offer this renowned fertilizer for the coming season, assuring our friends that the same high standard which has always characterized it shall be rigidly maintained.

Gentlemen:—In reply to your inquiry as to my opinion of Whann's Raw Bone SuperBrosphate, I unhesitatingly say that by comparison with other fertilizers during the
last three years, I am satisfied that Whann's has turned out better crops for me than
any other, and I expect to continue to use it.

JOHN E. THOMAS, Yours truly, JOHN E. THOMAS,

Messrs. Williamson, Upchurch & Thomas, Raleigh, N. C.:

Dear Sirs:—At the Orphan Asylum in Oxford, a very decided success has attended every application of Whann's Raw Bone Super-Phosphate. The land was poor, and the stason dry, but the crops surpassed our expectations. Such a fertilizer will work its own way, because those who have used it once will want it again.

J. H. MILLS, Supt.

Louisburg, N. C., November 7, 1874. Messrs. King, White & Shaw:

I have used Whann's Raw Bone Super Phosphate for the past four years, and am so well pleased with its result on my cotton crop that I have no wish to buy any other Fertilizer.

A Personal Difficulty With a Connecticut Editor. [From the Danburian ]

On Thursday afternoon this office was the scene of about the most memorable event we care to recall at the moment. It was tperectly awful. One of the heroes of the equine pandemouinm on Main street, re ported in our last issur, took advant age of our temporary absence by visiting our helpless and unprotected compositors and taking "horse-

whip" of us. It will be remembered that the lives of two ladies were imperilled and that of a third endangered in the equine pandemonium referred to. Our animdeversions on the topic mortally wounded the delicate sensi-bilities of the most promiuent racer, hitherto a personal friend of ours, and one to whom we are indebted for a loan of fifty dollars in connection with the buisness of this paper. So deeply aggrieved was the gentleman at what we intended as a kindly repoof that no better vindication suggested itself to him than the role of a town crier to unbosom the

private transactions between us. Nothwithitanding the knowledge that we were out at the time of his visit to the Danburian office on Thursday, he inquired for us. Expressing regret at the fact, our forman offered to serve the caller. The latter intimated that he could do so by paying him the fifty dollars we owed him. After a hectic flush of mortification o'er-spreading his Platonic countenance, confessed that he had not as much as fifty dollars about him; but if the gentleman would be seated he would proceed to take up a collection in the office. It was of no consequence to the gen-tleman, as said benefact or proposed compromisein the shape of a horse-whiping for us, in which the fore-man and compositors unanimously

agreed. Exit benefactor. Twenty minutes after the above transpsred we appeared on the deserted battlefield. Such a sight! Every one of our composing force were trembling so violently from fright that we were moved to set them, by turn, on a red-hot stove in order to bring them to a collected frame of mind. This done, we sharpend up our pencils, produced our note-book, got up steam. and made all rehdiness for issuing an extra with full particulars of the horsewhipping. For nearly four weary hours we fidgeted and paced in front of the Danburian building hoping against hope for the return of the gentleman and his horsewhip; but he disappointed us and, like Rachael refusing to be comforted, we sough our couch for the night, weeping

bitterly. COMMERCIAL REPORT. WHOLESALE CASH PRICES.

RALEIGH, N. C., December 21st, 1874. MR. WM. SIMPSON. DEAR SIR:—According to your request and for the benefit of Farmers, we the undersigned, after having tried our home-made Fertilizer last season, make the following statement: "That we believe it to be about as good as other Fertilizers which we buy already prepared, and a saving of two-thirds of our money.
"We think you may safely recommend it as a good fertilizer and a great saving to the farmer.

Yours truly,

# GUANAHANI GUANO COMPANY,

PETERSBURG, VA.

IMPORTED ONLY BY THE

In offering this FERTILIZER to the Agricultural Community a Second Senson we do so with the utmost confidence, feeling satisfied that the high opinion, we formed, and expressed last season based on its Chemical Constituents, have been most satisfactorily borne out by the test, by which all Fertilizers must be judged, that of the Plantation. Last season, owing to the lateness at which we commenced importing, we were forced to put our Guano on the market at once, but now having continued our importation during the summer and fail, and having large and well ventilated Warehouses in the city of Fetersburg and at City Point, we are enabled to put our Guano on the market in a condition as to dryness and freedom from lumps, equal to any Manufactured Fertilizer.

in a condition as to dryness and freedom from lumps, equal to any manusculor Pertilizer.

We solicit a careful perusal of our Circular containing the certificates sent us, and which can be had on application at this OFFICE, or from any of our AGENTS. Having nothing to conceal, we made no innovation on established usage, by publishing those letters received unfavorable to our Gnano, but careful inquiry in many cases proves that the cause of its failure was not owing to any fault in the Guano, but to those far beyond our control. We have frequently heard the same complaints of its kindred Fertilezer, Peruvion Guano, but the concurrent testimony of well known Farmers and Planters from Maryland to the extreme Western counties of North Carolina, justify us in claiming place for our Fertilizer Superior to many, and second to NONE.

We confidently expect the continued patronage of the Agricultural Community and no exertion will be spared on our part to make
